

YOU WANT TO CHANGE PEOPLE'S LIVES?

We at Motek do this every day.

With game-changing and innovative technologies that improve human movement therapy for millions of patients around the world. Join Motek and become a part of the global leader to define the therapy standards of tomorrow.

MEDICAL SOFTWARE DEVELOPER

WE ARE LOOKING FOR...

A software developer that likes to solve complex data processing problems in the medical field.

ABOUT US

Motek is a part of the global company DIH. With over 300 employees worldwide, DIH Development focuses on developing medical devices, software, and services. Our systems provide a virtual environment including physical motion for patients and integrate data from motion capture, force sensors, EMGs, IMU's, and cameras. The software development team creates research tools, cutting edge diagnosis support, and device control. Our software needs to be maintained and continuously expanded with appealing new features, such as machine learning capabilities and new device integration.

Leading. Innovative. Reliable. Functional. Enabling. Passionate.

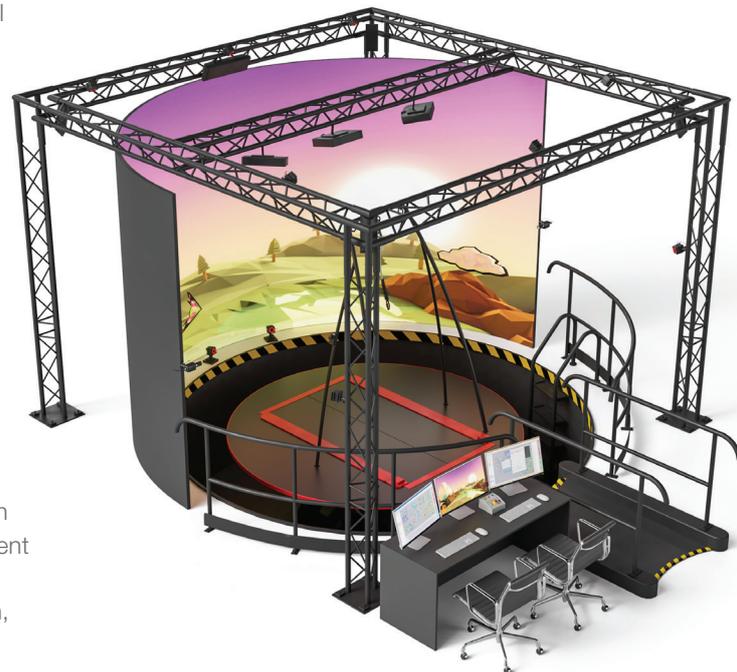

That is what Motek stands for. What do you stand for?
