

DIH SETS OUT TO IMPROVE THE LIVES OF HUNDREDS OF MILLIONS OF PEOPLE WORLDWIDE.

—
Founded in

2007

in China

Offices and partners

in more than **40+**

countries.

Since being founded in 2007, DIH has combined the best brands, innovations and people needed to create the **market leader** in the **advanced rehabilitation technology industry**. **DIH**, together with Swiss brand **Hocoma** and Dutch brand **Motek**, can be found in the top hospitals, clinics and research facilities around the world, pushing forward **futuristic care in rehabilitation**.

A relentless pursuit of finding the best solutions that **change people's lives** and bringing them to where they are needed drives DIH and made it the global company it is today. With three headquarter locations: Beijing, Zurich and Amsterdam, and hubs and sales partners in **more than 40 countries**, the DIH network is advancing medical technologies around the world.

Clinical Applications Manager EMEA

—
DIH is looking for a new Clinical Applications Manager (EMEA region) and join their highly experienced, award-winning, international team.

Location

Ljubljana, Slovenia.

Germany or Switzerland can be also considered.

WOULD YOU LIKE TO...

- coordinate and execute regional clinical education, scientific workshops and presentations?
- coordinate, execute and sell clinical application services in the Europe and Middle East Region?
- lead and manage regional knowledge exchange over various stakeholders?
- manage and compile regional clinical customer, clinical expert and research contacts?
- support and coordinate trainings of regional sales representatives and support sales activities?

WE MATCH WITH PEOPLE WHO...

- communicate openly and have natural authority in exchanging professional views / opinions with clinical and research partners on various levels
- keep track on their objectives and achieve the tasks given under tight timeline
- communicate positively and have a pleasant personality

- have great intercultural skills and business acumen
- are able and willing to travel up to 60% of the working time

YOU HAVE...

- experience in conducting clinical trainings for healthcare professionals, PTs or OTs
- preferably minimum 3 years clinical working experience in rehabilitation environments, working with neurological patients and an existing network of healthcare professionals
- an educational background as PT or OT
- excellent command of English (verbal and written)
- knowledge and experience in operating advanced rehabilitation equipment
- preferably working experience with Hocoma/Motek technologies

Above all else – the **right attitude** and **drive** is what we are looking for.

Apply now with your CV and Motivational letter in English to **personal@hocoma.com**

Att: Ms. Helene Teuscher.
