

MOTEK IS THE GLOBAL LEADER IN VIRTUAL REALITY ROBOTICS FOR HUMAN MOVEMENT RESEARCH AND REHABILITATION.

—
Founded in
1999
in The Netherlands

85+ employees
with hubs globally

With over 20 years pioneering the advancement of rehabilitation technology, Motek products and technologies can be found in the most **forward-thinking research facilities, top hospitals and stand-out clinics**, changing lives for the better daily.

From universities to the military, augmented reality to games-for-good development, Motek innovations are used for cutting-edge movement treatment and research **across the globe.**

Motek HQ is located in the Dutch capital of **Amsterdam** where they develop, manufacture and produce their state-of-the-art hard- and software technologies, with brand hubs further located globally. Motek, along with other market leaders such as Hocoma and Fysioroadmap, are part of the DIH family of companies **advancing medical technologies** around the world.

Product Manager Research Software

—
Motek is looking for a Product Manager to join one of the most respected pioneering teams in the industry.

Location
Amsterdam & Culemborg,
The Netherlands

D-Flow

Among your key product responsibilities would be our unique D-Flow visual programming platform for human performance research and rehabilitation. D-Flow integrates many

different hardware devices into a real-time feedback loop, immerses subjects in interactive virtual reality applications and allows researchers to collect data.

WOULD YOU LIKE TO...

- Drive product execution from planning through development to product launch, working closely with the software development, testing, clinical applications and marketing team
- Contribute to high-level strategic roadmap planning decisions
- Drive the vision and messaging for D-Flow
- Provide support for marketing and sales activities to achieve business growth

- quickly with new topics
- Have good social skills, and integrate well into a multidisciplinary and multicultural team
- Perform their task with passion, precision and curiosity
- Combine a critical eye with a can-do attitude

YOU HAVE...

- A master's degree in life science, computer science or business administration. A PhD is a plus
- Experience as a software Product Manager or proven experience with Motek's D-Flow software platform
- A minimum of 2-3 years of work experience in the medical or software industry is a plus
- Excellent stakeholder management skills – bridging conflicting interests with strong negotiation and interpersonal skills

WE MATCH WITH PEOPLE WHO...

- Are open to new ideas and feel comfortable in a dynamic environment
- Have great analytic skills and think solution-oriented
- Can work independently and are able to familiarize themselves

Above all else – the **right attitude** and **drive** is what we are looking for.

Apply now with your CV and letter of motivation to office@motekforcelink.com
Att: Human Resource Manager
