

# HOCOMA CHANGES LIVES EVERY DAY THROUGH TECHNOLOGY AND INNOVATION.

Founded in  
**1996**  
in Switzerland

**150+** employees  
from **25+** countries

For close to 20 years, Hocoma has been the **world leader in pioneering** the field of robotic rehabilitation: robots that are now in more than **70 countries**, in the top rehabilitation hospitals and clinics - and that have **impacted millions of lives** globally.

Featured in everything from scientific publications such as The Lancet and Journal of NeuroEngineering and

Rehabilitation to TechCrunch and The Oprah Magazine, Hocoma is on a mission to **reinvent rehabilitation** now and for the future.

Proudly founded, manufactured and engineered in Volketswil, Zurich, Hocoma is part of the DIH family of companies **advancing medical technologies** around the world.

## Medical Science Liaison for Gait Balance

**Location**  
Switzerland.

### ARE YOU INSPIRED BY...

- ensuring that our gait & balance products cover the clinical needs of the rehabilitation world?
- working throughout our product's lifecycle to help ensure that products are utilized effectively?
- serving as scientific peer and resource within the clinical community and being the scientific expert to internal colleagues at company?
- influencing and enhancing the innovation of our gait & balance product portfolio?
- managing and compiling education materials for end-customers on a global level?

### WE MATCH WITH PEOPLE WHO...

- communicate openly and have natural authority in exchanging professional views with product managers, engineers and clinical experts on various levels.
- are passionate about gait rehabilitation, have visions and the power to turn them into reality.

- have a structured working style to enable customer-centric content.
- transfer easily customer needs into clinical requirements.
- have great intercultural skills.

### YOU HAVE...

- physical therapy background and clinical working experience in gait and balance rehabilitation environments.
- knowledge and experience in operating advanced rehabilitation equipment, experience with Hocoma product will be a plus.
- strong interest in working in an agile environment within a multidisciplinary team of engineers, clinicians, marketing, regulatory, etc.
- disruptive ideas to overcome the healthcare challenges that affect gait and balance rehabilitation.
- an educational background as PT, OT or Human Movement Scientist.
- excellent command of English. Additional language(s) will be a plus.

Above all else – the **right attitude** and **drive** is what we are looking for.
